### **Ms. Mary Louise Daly**

Ms. Mary Louise Daly is an advanced practice nurse (APN) specialising in rheumatology. She works at the University Hospital Basel and the University Children's Hospital (UKBB) in Switzerland. With over ten years of experience, Ms. Mary supports adolescent and young adult patients during their transition from pediatric to adult services. She is also involved in caring for adult rheumatology patients at the University Hospital Basel. Ms. Mary is an active member of INGID and has contributed to the development of a German-speaking immunology nurse network. Her expertise, combined with her academic background in medical anthropology and analytical chemistry, makes her a valuable asset to the healthcare community.
