Prof. Mustafa Abdalla Mohamed Salih

Prof. Mustafa Salih holds degrees from the University of Khartoum and Uppsala University in Sweden. His expertise is acknowledged through fellowships, including The Royal College of Paediatrics and Child Health (UK) and the American Academy of Neurology (USA).

Prof. Salih served as a Professor of Paediatrics and Consultant Paediatric Neurologist at King Saud University (1992-2020). He has contributed significantly to medical literature with over 275 articles published in esteemed journals. His collaboration with The King Salman Centre for Disability Research has resulted in supplements published in notable medical journals. He also authored chapters in influential medical textbooks and edited "Clinical Child Neurology," a comprehensive book published by Springer Nature. With an enduring impact in paediatrics and paediatric neurology, Prof. Mustafa Salih is a respected figure in the medical community.
